

# RAKE GENETICS

... a tradition of excellence

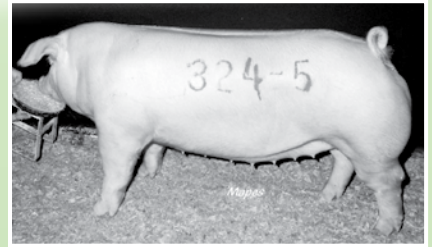

## DOMINATING THE CHESTER BREED

**CPS Across Herd Sire Summaries**

Listed below are the most elite boars based on both maternal and terminal traits. The CPS breeds' in house Herdsman Performance Program calculates and indexes genetic lines starting the process that enables breeders to make strides in areas on which they wish to concentrate. These boars represent the top 5% of all sires used within the breed and can successfully result in enormous genetic progress. For a complete list of all sires, please do not hesitate to contact CPS at (309) 691-0151 or cpspeoria@mindspring.com. Sires analyzed were born January 1, 2013, and after.

Traits	Boar	Traits/EPD
SPI	TRF6 Promise Keeper 201-5	113.16
SPI	TRF5 Promise Keeper 20-2	112.90
